## INTRODUCTION

This report has been prepared by the Department of Administration's Budget Bureau to present, in a single document, all appropriations authorized by the first session of the Forty-Third Legislative Assembly. It is intended that this report be used as a reference document when information pertaining to biennial 1973-75 appropriations is desired.

The report itself is divided into five sections:

<b>TABLE I</b>	Summarizes the appropriations by the three branches of State Government -- including the Building Program.
<b>TABLE II</b>	Details of operating appropriations.
<b>TABLE III/IIIA</b>	Details of building appropriations.
<b>TABLE IV</b>	Compares Executive General Fund Budget recommendations with amounts actually appropriated.
<b>TABLE V</b>	Use and allocation of Revenue Sharing funds.

## TABLE I

Table I presents a summary of legislative appropriations from all funds among the three branches of Montana state government. This is the total budget of the State over which the Legislature exercises control. There are other special funds which require no legislative approval and are not included in this table.

## SUMMARY OF APPROPRIATIONS

(1) Although no capital building projects are appropriated directly from General Fund, the Long-Range Building Program bill, Senate Bill No. 54, does provide for placing \$602,775 of General Fund monies in the Bond Proceeds and Insurance Clearance Fund as one of the Building Program financing sources.

## TABLE II

Table II details the appropriations made by the Forty-Third Legislative Assembly for the general operation of the various State agencies. The appropriations, as presented in the table, are divided between the General Fund and special funds.

The special funds group consist of certain types of revenue set aside by law to be used for specific purposes. All financial activities which have not been so restricted constitute the General Fund.

In addressing the complexities of funding Montana state government, a fact which is often overlooked is that a relatively small proportion of State funding is derived from the General Fund. The General Fund will contribute only 31.87 percent of the total operating appropriations for the 1973-75 Biennium. This percentage would be further reduced by the inclusion of certain special funds which are not directly related to agency operations, such as Long-Range Building Funds, Debt Retirement Funds, and Trust and Legacy Funds.

The distinction between General and special funds exists substantially in the sources of the revenues which are deposited to each. Special funds are derived largely from use taxes, professional and occupational license fees, Federal grants, and sales of commodities and services. The bulk of General Fund revenue results from taxes levied on individuals, corporations, commodities, and liquor profits.

## TABLE V

Public Law 92-512, entitled "Fiscal Assistance to State and Local Governments", better known as Revenue Sharing, became a reality on October 20, 1972, when the President signed the Act into law. The additional resources generated by the Act, at the State level, gave the Forty-Third Legislative Assembly flexibility unexperienced in past sessions.

Although, according to law, the use of the funds may vary over a wide range of programs and projects, the Montana Assembly chose to use these funds as a method of meeting expanding demands on the General Fund, committing 18.5 million dollars to the operation of the Department of Institutions and 5.9 million dollars to the Long-Range Building Program.

Federal regulations require the Revenue Sharing Funds be deposited in a separate trust account. Further, State statutes provide that monies received from Federal sources be accounted for in a fund known as the Federal and Private Revenue Fund. To comply with both of these provisions, two Federal Revenue Sharing Accounts in the Federal and Private Revenue Fund were established and Federal Revenue Sharing monies were appropriated from these accounts by the Forty-Third Legislative Assembly. Thus, Federal Revenue Sharing monies are not included in the State's General Fund and are reflected in the "special funds" category of this summary.

Table 5 reflects the use and allocation of the operational funds with the Department of Institutions.
